Description

Description: Buzet is located in the very north of Istria, near the border with Slovenia. Its historical core, which dates back to the Middle Ages, lies on top of a hill above the fertile valley of Istria's longest river, the Mirna. Today, Buzet is widely known as the 'City of Truffles' because the forests along the Mirna River are particularly rich in this divine tuber. As part of the town of Buzet, at 348 meters above sea level, rises the small town of Roč, a destination for many hikers, tourists and lovers of history and the Glagolitic alphabet. In a quiet village not far from Buzet, with a beautiful view and surrounded by several houses, there is a building plot with a total area of 1684 m². An asphalted road leads to it. The land is located on an elevation in relation to the access road and offers a beautiful view of the surrounding hills. All city amenities are located in Buzet, 7 km away. There is a water and electricity network on the land, and the construction of a septic tank is required for sewage. Located in a quiet location with several houses, surrounded by nature, this land is ideal for a quiet family life or for building a holiday home.
