Description

Description: Motovun, the best-preserved and most attractive Istrian medieval town located in the northern part of the Istrian peninsula, above the Mirna river valley. There are 26 protected cultural monuments in the old town center. The surroundings of Motovun abound in biological diversity, lush vegetation and a special microclimatic feature. Due to the value and attractiveness of the medieval fortifications and favorable climatic conditions, Motovun is a real tourist mecca. Peace, nature and a beautiful location are the key words that describe this property. The land is located in a quiet location, surrounded by few houses and villas with a swimming pool, and is accessed by a neat paved road. The terrain is flat and partially cleared, and has a total of 1.696m². The electricity connection is located next to the land, while the water connection is only 150 meters away. The land has a valid building permit for the building with a gross area of 252 m². The project is an imagined house whose design blends harmoniously with nature and the environment. It consists of three bedrooms, a wardrobe, 2 bathrooms, a living room connected to the kitchen and dining room, and associated rooms. At this stage of construction, the construction of a swimming pool is not planned, but it can certainly be built later. This is a true paradise for lovers of nature and adventure.
