Description

Description:	Istria has always been a terra magica for determined travelers, and the magic of its
--------------	--

interior is shrouded in mystery. Located close to the sea expanses of the Adriatic, in the heart of the fairytale Mediterranean peninsula, sheltered by the proud Istrian mountains, central Istria still beckons with its undiscovered beauty. Its rich offer of forgotten tastes of childhood, activities where you least expect them and excursions full of unusual experiences, is what makes this destination unique. In the untouched nature of the small town of Kringe, there is a developing settlement with several prefabricated houses, not far from entertainment and gastronomic facilities. The house is designed as an open space kitchen with a dining room and a living room with access to a terrace of approx. 100 m². Two bedrooms with their own bathrooms and one more bedroom and one bathroom in the living area. The house will be equipped with air conditioners, and landscaping is also offered, where the material for the environment is under the direction of the customer. In the yard of 600 m², there is also an 8m x 4m swimming pool with a covered lounge terrace and two parking spaces. In the current phase, there is the possibility of participation in the layout and concept of the property by the buyer. The total area of the parcel is 731 m². Of the three houses planned for sale, two have already been sold, and future interested buyers can see on the ground what their future house will look like. Building permits have been issued and construction is in full swing. The owner who sells the property is also the contractor, so the process is much simpler. So call today; ID CODE: IS1506869
