small fishing village. Walking over Vinkuran Bay and Soline Bay, you will spend a pleasant vacation in silence and peace. The place has a sheltered beach next to a pine forest. Recommended for lovers of nature and peace. There is a shop, a restaurant and a cafe in the village. Vinkuran is always known for its stone. In ancient times, stone blocks for the Pula Arena were extracted from the quarry near Vinkuran-Cave Romana. today, an art colony is held in the quarry in the summer months, where sculptors demonstrate their skills. In this wonderful place not far from the city of Pula, which belongs to the municipality of Medulin, there is this beautiful apartment house, which measures as much as 560 m². The house consists of a ground floor and two floors. On the ground floor there are 3 bedrooms with bathrooms, a professional kitchen, a large bar, an area intended for entertainment with a pool table, darts, table football and a large dining room with a fireplace. From a separate entrance we enter the gym and sauna with jacuzzi and shower. On the other two floors of this beautiful building, there are apartments with their own bathrooms, and as such they are fully equipped. Behind this beauty, in which a lot of effort and love has been invested by the current owners, there is a spacious yard with a large swimming pool. A huge advantage is that each apartment has its own terrace, so if the new owner wants to deal with tourism, the earnings will also increase. On two sides of the house, where there are terraces, a panoramic view extends to the beautiful sea and neighboring towns. The property is worth attention and viewing.
