Description

Description: The town of Peroj takes advantage of its location in the best possible way: 2 km from Fažana, it enjoys a view of the Brijune National Park. Peroj is a valuable and exciting archaeological site from the Roman era, so we recommend it to everyone who wants to spend their vacation away from the hustle and bustle. Today, Peroj is constantly exposed to continuous urban development, with tourism as the ultimate goal. It offers a wide range of accommodations in private houses and villas. Peroj is also known for producing one of the highest quality Istrian delicacies, olive oil. Agricultural land of 2002 m² is for sale in Peroj. The land is located in a quiet location, which is reached by a macadam road. Since it is located next to an urbanized part, a request for urbanization has been submitted, which should be completed in the second year. All utilities are located next to the land. There are currently about 20 olive trees on the land. ID CODE: 930
