Description

Description: Štinjan (Italian: Stignano) is a suburban settlement within the city of Pula. The local board of Štinjan includes the suburban settlement of Štinjan and the suburban tourist areas of Puntakristo, Puntizela, Valdežunac and Mulimenti, and the islands of Sv. Jerolim, Kozadu, Sv. Katarina. This beautiful house is located in this small and quiet place. The house itself is only 300m from the sea and our famous Puntizela beach. The total area of the house of 363 m² gave the current owners the possibility to divide the house into 4 apartments. In the basement of the house there are three rooms and a small cellar. On the first floor of the house there is one

more spacious apartment with 2 bedrooms, a living room, a kitchen with a dining room and a bathroom, and on the second floor there are three apartments with a view of the sea, which is in the immediate vicinity. The house also has 349 m2 of construction land on which there is also a garage with a storage area of 68.12 m2. There is also a canopy on the spacious garden, which provides more covered parking spaces. There are several heating options in the house, namely: gas, air conditioning and a wood-burning fireplace. The house has solar panels for hot water. An ideal investment opportunity for tourism that is already established, considering that it has the possibility of receiving more guests. It is also good for a family home due to its close proximity to all amenities necessary for life. We are at your disposal for more information about the house itself. ALMEDINA
