Description

|--------------|--|
| Description: | Vodnjan is a town in the southern part of Istria, ten kilometers north of Pula, located on a fertile lowland area that opens to the sea near Peroj and Fažana in the west. A big advantage is that it is located at two exits from the highway, which is great for connecting with the rest of Istria as well as with neighboring countries. Only 4 kilometers from the town center, in a quiet part of the village, this beautiful detached villa with a swimming pool is located. The building has a total living area of 220m ² and is located on a plot of land of 570m ² . The house itself consists of a |

ground floor and a first floor, so on the ground floor there is a hallway, a large living room with access to a neat and paved terrace and a swimming pool, a fully equipped kitchen with a dining room, a guest toilet and one bedroom with its own bathroom. The first floor of the house is accessed by an internal staircase, where there are three bedrooms, each with its own bathroom and a balcony with a beautiful view of the surrounding nature and the sea in the distance. Also, each bedroom is equipped with its own air conditioner and satellite television. The yard is completely fenced and as such ensures complete peace and privacy. In front of the house there is a large paved swimming pool with a total area of 28m², a summer kitchen with a covered terrace for enjoyment during the summer months. The yard is also in excellent condition, it is decorated and maintained and is decorated with Mediterranean plants and various fruit trees. Several parking spaces are provided within the building itself. The house is sold completely as shown in the pictures, i.e. with all the furniture. This beautiful villa represents an excellent investment for tourist purposes because it is located in an excellent and quiet location, not far from the center of the town, the sea and all the necessary facilities. Also, the facility is categorized as a 4-star vacation home, and it can continue to be rented out for tourist purposes and thus recover the invested funds sooner. In addition to the tourist purpose, the real estate can also be a great opportunity to solve the housing issue and buy a beautiful and high-quality real estate for a comfortable and peaceful life.
