## Description

Description: If all roads in Europe lead to Rome, then all roads in Istria lead to Žminj, the heart of Istria. Since ancient times, Žminj has connected the entire Istrian peninsula. The place is ideal for enjoying nature, hiking or cycling, and on the way through Žminj and its surroundings you will come across many stone houses, each of which tells its own story. Centuries-old Istrian stone houses have been converted into agrotourisms where you can taste local Istrian cuisine. In a small town near Žminj, there is a complex of Mediterranean villas with swimming pools a few kilometers from Svetvinčenat and in the immediate vicinity of the Istrian Epsilon. The properties are located in a quiet location, are oriented to the south and have good road connections with the coastal towns of Istria. The property is located on a plot of land of 2783 m<sup>2</sup>, and has a total net living area of 293 m<sup>2</sup>. The house consists of an entrance hall, 5 bedrooms, 5 bathrooms, a kitchen, a dining room, a living room, a boiler room for central heating, a storage room and a sauna with a covered terrace. To maintain a comfortable temperature, underfloor heating is planned and air conditioning units will be in all bedrooms and the living room. The internal and

external carpentry is wooden, the floor is tiled with ceramics, while the stairs are made of stone. Furniture is not included in the price. The fenced yard provides privacy in enjoying the outdoor facilities, which include: a 40 m2 swimming pool with a sun deck and an outdoor summer kitchen. Irrigation for the lawn will be installed inside the garden. The property has its own covered parking for 3 cars and a garage, while the complex is entered through an automated door for which the owner will have his own remote control. An opportunity to invest in a quality built tourist facility with a return on investment due to all its facilities, location, and excellent road connections. ID CODE: 1041
