Description

Description: One of the most "photogenic" towns in the Mediterranean is the former fishing and

now tourist town of Rovinj-Rovigno. About 40 kilometers from Pula,

Rovinj-Rovigno has long been known as a city whose climatic features have a favorable effect on health. Therefore, even today, this city and its citizens cherish a long tradition of maintaining the place and "fight" for the epithet "healthy city"... and nature does the rest. The entire coast, namely, along with twenty-two islands, is a protected natural heritage. In the vicinity of this beautiful city, only 8 km away, there is an agricultural land with a total square footage of 1438 m2. A macadam road (300m) leads to the land, which is maintained. Utilities are 300 m from the field itself. Galvanized posts have been placed around the plot and everything is ready to install a wire fence. The possibility of buying a complete plot of land with an area of 9300 m2. The documentation is in order. We are at your disposal for more information. ID CODE: IS1507241
