Description

Description: Not far from the beautiful Southwestern coast of the Istrian peninsula is the town of Vodnjan, a town rich in its historical heritage, culture, and wonderfully located with a beautiful old town core. The old town center and most of the basic amenities in Vodnjan are located on a beautiful hill that offers a beautiful view of the sea and the Brijuni Islands. Right in the very center of Vodnjan, these two apartments are located within a newly renovated house with an area of 91 m². There is a 21 m² studio apartment on the ground floor, while the spacious family

apartment is on the second floor with a terrace and is 60 m² in area. The studio apartment consists of a bathroom, a kitchen, a dining area and a sleeping area, and the internal, newly renovated, stone stairs lead to the family apartment on the second floor of 60 m², which consists of a bathroom, kitchen, living room, bedroom and a terrace of 10 m² with a beautiful view of Učka. The apartments are equipped with new, high-quality PVC joinery (walnut). The mezzanine structures are all concreted and reinforced. The electricity and water installations were done anew, as well as the roof, and the future property owner is given the option of choosing a tile or laminate design as part of the price, while during the renovation of the property, attention was paid to every detail, and stone details were left that give the right touch. Each apartment has an air conditioning unit. The property is sold with the first phase completed, room and entrance doors installed, floors, ceramics, and the second phase of the bathroom. There is a possibility of buying the entire house with four apartments. The mentioned property represents a unique property due to its location, quality and multi-apartment units, and provides a future buyer or buyers with an excellent investment to enjoy it in the sense of a family and a great possibility of engaging in catering activities for rent and a quick return on invested funds.
