Description

Description:

The County of Istria is famous as one of the most suitable regions for life, and offers many natural beauties supported by a warm Mediterranean climate and a very cordial resident population. In Istria, on the southeastern part of the coast, the village of Krnica is located, which covers a large area of the coast, and every year it invests in its infrastructure and content, becoming more and more interesting for investors due to its beautiful beaches and the Istrian flair itself. Four luxurious and unique one-story houses in the form of autochthonous Istrian kažuns are located in one settlement near Krnica, each of which has an area of 55 m². Each modern-rustic kažun has a separate yard and a covered terrace of 14 m², and consists of an entrance hall, kitchen, spacious living room, bathroom and bedroom. Between these four single-story buildings is a pool of 26 m², for shared use, with a sunbathing area and a storage room. The plot is surrounded by a high-quality industrial fence, and the entrance door is electrically operated, with a code and an intercom. The houses are built with natural materials - stone, which is precisely what attracts attention and gives the atmosphere of Istrian flair. The houses are equipped with outdoor and indoor air conditioning units, and in the spacious living room there is a fireplace that completes the atmosphere of the stay in the winter months. These properties represent a combination of the epithets autochthonous, unique, luxurious, modern, rustic and attractive, and due to their peaceful location, they offer the future buyer a great opportunity to enjoy the same in terms of family life, and in accordance with the latter's wishes, it offers the possibility of engaging in the hospitality business of renting them, and faster return of invested funds or a combination of both.
