Description

Description: The site of today's picturesque town of Labina, located on a hill 320 meters high, only about 3 kilometers from the sea, was apparently inhabited as early as 2000 BC. Rarely does the wealth of architecture and cultural-historical monuments combine so charmingly with numerous art studios and the breath of youth that gathers there. After a walk through the streets of the Old Town, visit the City Museum with an archaeological and ethnological collection and a mine model unique in this part of Europe, take a look at the art studios, enjoy the beautiful view from the city's Fortica of the sea, Rabac, Kvarner and the islands of Kvarner. In an exceptional location, in the immediate vicinity of the city center, a building plot of 1048 m² is for sale. The plot is located next to an asphalted road, and water and electricity are located next to the plot. Considering the location and proper ownership, this land is ideal for a villa or a family home.
