Description

Description:

ISLAND OF KRK - Modern modern villa with pool and large garden in the center of the island. It consists of two floors. On the ground floor there is a large integrated living room, kitchen and dining room, with access to the terrace and sun deck by the pool. The ground floor also contains a toilet, laundry room and study, which can be converted into a bedroom if needed. The first floor is connected by an internal staircase and leads to a large entrance hall which has the function of a second living room. Upstairs is a large bedroom with private bathroom and a large walk in closet. Upstairs are two more bedrooms, which are currently connected and one has been converted into an entertainment room, and a large bathroom. The house is designed in Irish style, where the living area has lots of light. The house is fully furnished and equipped with luxury, quality and functional, yet unobtrusive furniture. In the living room on the floors there is a peasant floor, quality oak parquet, carpentry is quality PVC. The current owners made sure that such a large house gets the warmth of a home with imaginative details. This villa is not built as a holiday home, but is designed to stay all year round. It has oil central heating and as many as six quality air conditioners. The strongest asset of this villa is certainly the garden of 1250 m² fully furnished, with a large sun deck and a terrace with heated pools. Next to the house there is a garage with space for two cars, while in the yard there are even more parking spaces. On the east side of the island of Krk is the municipality of Dobrinj with the center of the same name. Dobrinj is located on a hill about 200 meters high and is one of the medieval castles that were centers of literacy in the past. For centuries, Dobrinj was a distinctly agricultural area. Livestock and olive growing were also represented, as well as the exploitation of forest resources. The place is also known for its colorful folk costumes, folklore events, sopela school (Krk wind instrument) and traditional local cuisine. This island center is dominated by indigenous stone houses and narrow stone streets that exude the past. Not far from Dobrinja is the Biserujka cave, which delights with its beauty and interesting sedimentary forms. It is the only cave on the island, more than 50 of them, arranged to receive visitors. According to legend, the cave was named Biserujka (pearl) after the treasure found in it, and it belonged to local pirates.
