Description

Description: Kršan, surroundings, we are selling a beautiful adapted autochthonous holiday house with a swimming pool and a separate apartment. The house is designed as a two-story house with a total area of 233 m². It was completely renovated in 2019, where the owners made an effort to maintain the authenticity of the old Istrian house, yet functionally equipped for a luxurious stay and vacation. The ground floor of the house consists of a fully equipped kitchen with a pantry, a dining room and a spacious living room. There is also one bathroom and a laundry room. The floor represents the night area with three comfortable bedrooms and one bathroom. Heating and cooling is regulated by air conditioners, and oil-fired central heating is also installed. The auxiliary building as a separate apartment has a total square footage of 51 m² and consists of a bedroom, a bathroom, a kitchen with a dining room and a living room. Both buildings have access to separate beautifully decorated terraces, and the main house has direct access from the spacious covered terrace to the pool beach. The yard is completely fenced and decorated and maintained with special attention. It has a total square footage of 880 m² and provides a spacious parking lot, beautiful green areas with planted Mediterranean plants, its own garden for the home cultivation of various vegetables and fruits, and a beautiful 24 m² swimming pool with an arranged sunbathing area. There is also a small garden house on it that serves as a storage area and a tool room. The garden concept offers complete privacy to each separate building, and the estate offers the possibility of permanent residence in one building while renting another building without disturbing the peace and privacy. The outdoor part provides a beautiful view of the surrounding landscape and untouched nature and greenery and is an excellent choice for all those who love being in nature and an active vacation, considering that the location offers many forest trails for hiking and biking and exploring all the hidden natural beauties of this area.
