sea and approx. 2500 m from Šilo. Living area of 53 m² net, consists of ground floor and first floor. On the ground floor there is a kitchen, a spacious bathroom and a living room with a dining room, which is also the entrance room. In front of the living area there is a terrace that can be covered and a small garden with two palm trees, a grapefruit tree and some ornamental plants. External stairs lead to the upper terrace, from which you enter the space on the first floor, which consists of a hallway and two bedrooms. The low ceiling serves as a storage room. The parking space as part of the garden is located behind the house. The house is connected to electricity, but although the water supply is right in front of the house, a well with a volume of 19 m³ is used. Considering that the well is above ground and touches the kitchen area, it is possible to get an additional room from it after connecting to the water supply network. The property can be moved into immediately, although it requires some decoration, but due to its location and smaller square footage, it represents a great opportunity to buy a holiday home by the sea. Dear clients, the agency commission is charged in accordance with the general business conditions: www.dux-nekretnine.hr/opci-uvjeti-poslovanja ID CODE: 23652
