Description

Description:

Surrounded by old forests and located on a hilly plain, Sv. Petar u Šumi, seat of the smallest municipality in Istria, is the most unusual Istrian town. Typical Istrian architecture is less represented here, but the noticeable influence of the north is noticeable in its construction. Most of the houses scattered around St. Peter are still covered with stone shutters, gray with time. A well-maintained house of 239m² is for sale, located on a plot of 1521m². The house has a main entrance and three entrances to the apartments are separated by entering the corridor. On the first floor we find a living room connected to the kitchen and an exit to a large covered terrace that is connected to the garden and swimming pool and a large summer kitchen. On the same floor we have 2 rooms, bathroom, toilet. From the outside covered terrace you can enter the garage that is attached to the house. From the main hall we go down to the basement and there we find a large living room with a kitchen with a fireplace. We also have 2 rooms, a bathroom and a storage room. Again from the main entrance we go up the stairs to the first floor and there we enter a spacious hallway, then the kitchen and living room. Upstairs we have 3 rooms, one of which has a terrace overlooking nature, a bathroom and a storage room. The garden has a garage, a large summer kitchen with a covered canopy and a swimming pool. There is a storage room above the garage in the attic. The house can be used as one unit and can be completely separated into three apartments. The house has solar panels. The house has and uses its own cistern for irrigation. The pool with all the equipment and the beach around the pool were completely rebuilt in 2022. The quality of this house is guaranteed. It was maintained regularly. An ideal property for family life or taking over an already well-established tourist rental.
