Description

Description: Istria, Rovinj, surroundings Near the pristine beaches of the city of Rovinj, and a step away from the ornithological reserve Palud, there is a plot of land with a unique panoramic view of the sea. Rovinj and the stone old town center are only a

few minutes' drive away, while Pula is about 20 kilometers away with its wide range of city facilities. And if you take a slow step towards the south, you will reach the mentioned beaches. The land covers 1350m² and has a regular shape, has an access road and is partially fenced. All the necessary infrastructure for construction is located nearby, while it is surrounded by greenery and a smaller neighborhood, which ensures peace and privacy. On this land, it is possible to build Po+P+1+Pk (basement, ground floor, first floor and attic), which offers you a multitude of possibilities to build an object according to your own wishes, needs and possibilities.
