the beginning of the 15th century. It gained its first municipal independence in 1874, but kept it for a very short time, only two years. It is divided into two parts, St. Lucia and St. Barbara, according to the names of the two churches that exist in its territory. Kostrena is located in the immediate vicinity of the city of Rijeka, surrounded by the bay of Martinšćica and the Bay of Bakar. Our Kostren peninsula is about 10 kilometers long and slopes gently towards the sea coast. Beautiful beaches are located along its entire length, which are visited by thousands of bathers during the summer. The most famous and most visited are those in Žurkovo bay, followed by Smokvinovo, Svežanj, Spužvina, Podražica, Nova voda and Perilo. Kostrena consists of about twenty settlements, many of which were named after families, and today Vrh Martinšćica, Glavani, Sv. Lucija, Rožmanići and Paveki. The characteristic karst area with Mediterranean plants and the famous Kostren thunderbolts, and the mild climate that sometimes succumbs to strong storms, are the characteristics of our region. In Kostrena, a place of sailors and fishermen, there are a number of newly built villas, houses, smaller buildings with luxurious apartments with an exceptional view of the sea, but also the forest in the background. A place that is organized according to the scale of a large city on a smaller geographical area, makes Kostrena an ideal place to live. The proximity of all facilities, forests and mountains, but especially the sea, promenades and natural beaches, sets Kostrena apart from the rest of the coastal belt.
