The town of Otočac offers summer, winter, village, mountain and adventure tourism. Such a comprehensive offer is a real rarity in the Republic of Croatia and beyond. Gacka dolina is a large karst field bounded by Velebit towards the sea, and towards the interior by Kapela. The field is dominated by the river Gacka, which rises at one end of the field and sinks at the opposite. In terms of length, Gacka is the third sinkhole in the world. Its original course is 32 km long. Due to the slight drop in altitude, its flow is calm and winding. The water of Gacka is extremely clean and rich in oxygen.
