with building permits or something else as desired by the potential buyer. The entire terrain is normally located on a hill, but the configuration of the terrain is completely flat. The field is located in a quiet and peaceful position and right next to the paved road, all utilities to the field. Clean and tidy property. The land is completely cleared and ready for construction. The future built property on this plot would have a view of the sea even from the ground floor, but from the first floor there would be a panoramic open view of the sea, the entire Kvarner Bay and the islands. This property is 700m from the sea as the crow flies, or 1.5km by car (about 4 minutes). **PROPERTY IN A GREAT AND UNIQUE LOCATION WITH GREAT POTENTIAL!!!** **LOVRAN:** Lovran is a city with a long and rich past with a hundred-year tradition in tourism. It was named after the laurel (*laurus nobilis*) which grows abundantly in evergreen groves in the town and its surroundings. Lovran is located on the eastern coast of Istria in the Kvarner Gulf. It is located at the foot of the greenest and most vegetated mountain on the Adriatic - Učka. It is 19 km from our largest port Rijeka, 14 km from the train station in Matulji, and 80 km from the airport in Pula. It is surrounded by high mountains to the north and west (Učka 1396 m, Snježnik 1605 m, Risnjak 1528 m), and on the sea side by islands (Krk, Cres), and its position is exceptionally protected from the winds. In the winter months, the most common wind is the bora, which blows from the north and brings clear and cold weather. Jugo brings rain and high humidity, and in the summer months the mistral brings freshness from the open sea, mitigating the heat and humidity. Lovran has preserved its historical core of the medieval urban concept. The old town was surrounded by a defensive wall and bastions on the foundations and walls of which houses were built over time. The courtyards of the Old Town are the charm and specialty of Mediterranean urban architecture. Behind the stone portal, the facades of the neighboring houses can be seen, decorated with staircases, porches and skodes, and in the middle of the courtyard rises the stone mouth of the cistern. In the 21st century, Lovran has a rich historical heritage, a centuries-old tourist tradition, preserved nature, built infrastructure, all of which enables the resurgence of tourism with sustainable development and compliance with all ecological standards. The good climate, lush Mediterranean vegetation and favorable geographical position enabled the strong development of tourism at the turn of the 19th and 20th centuries. Since that time, Lovran has been, along with Opatija, the most important place on the famous Riviera. Several villas built at that time are included in the world architectural heritage. The climate is Mediterranean with continental elements. The average winter air temperature is 7°C, summer 22°C, while the annual average is 13.3°C. Sea temperatures range from a minimum of 9°C in the winter months to a maximum of 26°C in August. Lovran has 2,230 sunny days per year and an average amount of precipitation of 1,500 liters per m². These specific microclimatic conditions allowed all Mediterranean vegetation and plants to thrive. Laurel, palm, magnolia, various types of evergreen shrubs, honey oak, pines and cypresses grow in abundance along the coast. Above Lovran, on terraced gardens, cherries, vines and olives thrive, and on deep, washed and acidified soils, forests of tame chestnuts (the famous Lovran maroons) grow

abundantly. The abundance of vegetation and the high concentration of salt in the sea (37.8 ‰) result in rich plant and marine aerosol in the air. All these elements make Lovran's climate very stimulating and favorable for health. Opatija: Opatija, a beautiful coastal town located on the Adriatic Sea, is a famous tourist destination for tourists from all over the world. The city is surrounded by beautiful nature, at the foot of the Učka mountain. Real estate in Opatija offers a priceless view of the sea and the surrounding islands of Krk and Cres. Opatija is surrounded by charming small towns with old houses located in narrow streets rich in history. The streets of the city of Opatija are made up of properties that stand out with their specific architecture and villas that date from the Habsburg period. A large selection of beaches, crystal clear sea and various tourist services are the key factors that make Opatija a perfect tourist destination recognized by neighboring countries as an excellent investment choice. Real estate prices in this area are rising, rental occupancy is excellent, which has resulted in a return on investment of 5% to 10% and attracting foreign investors.
