Description

Description: LOCATION A part of a beautiful old stone house is for sale in the center of Kaštela, 350 m from the sea. The town of Kaštela is located on the coast of Kaštela Bay and with over 40,000 inhabitants it is the second largest city in the Split-Dalmatia County. The special feature of this city lies in the fact that it developed around 7 places (Kaštel Sućurac, Kaštel Gomilica, Kaštel Kambelovac, Kaštel Lukšić, Kaštel Stari, Kaštel Novi, Kaštel Štafilić) i.e. around fortresses - castles, and each place has its own specificities that characterize this Mediterranean region. Kaštela is one of the cities with the best traffic connections, so in addition to the international airport Split - Kaštela, there is also a railway station in Kaštel Stari, while it is connected to the Split - Zagreb highway by exit - entrance branches, the nearest of which are 20 km away. Nearby is Marina Kaštela, which is one of the most visited marinas in Croatia due to its modern facilities, wide range of services and exceptional geographical location. The marina is also equipped to receive Mega yachts. Kaštela is an ideal location for all lovers of natural, cultural and historical heritage, because in an area of only 30 km there are four ancient cities: Split, Solin, Kaštela and Trogir. DESCRIPTION The subject of sale is one half of a large stone house which, together with the garden, is located on a unique cadastral lot and is separated from the other half of the house.

It is a large stately stone house typical of that climate and of good construction. The house itself consists of a ground floor, a first floor and an attic. The house is located along the old Kaštela road and is oriented to the south. The total gross usable area is 244 m2 and refers to the residential part of the house (ground floor and 1st floor), attic, tavern and auxiliary building located right next to the house. All properties are in order and in good condition. In front of the house there is a yard large enough to be both a parking lot and a green area. Behind the house, towards the north, there is a construction plot with a total area of 1030 m2, which is located within the zone "mixed use, predominantly residential - M1", that is, all the land in question is located in the built-up part of the construction area of the settlement. This property has great potential, for family life or for commercial tourism purposes, because all important segments are in the immediate vicinity (sea, beach, airport, expressway, schools, kindergartens, various specialized shops, health centers, bus stations... ..).
