Description

Description:

RIJEKA, TRSAT - luxury penthouse in an ultra-modern new building in an excellent location with a view of the sea We are proud to present this long-awaited luxury project that began with the construction of this top-class multi-apartment building with an elevator and an underground garage. Trsat represents one of the most attractive parts of the city primarily because of its interesting historical story and the view of the city of Rijeka from an altitude of 138 meters. It is located on a steep cliff above the Rječina canyon. We can rightly call this neighborhood a 'small city' because of the good transport and communal infrastructure, the availability of health care, the rich offer of educational institutions, sports locations, green areas, parks, playgrounds for children, cultural, entertainment and sports offers, spaces for recreation and catering establishments. In our offer for those with refined and refined taste, we are selling this top-quality penthouse apartment S-10 with a total gross area of 252.90 m2 on the third floor, which consists of an entrance hall, a kitchen with a dining room and a spacious living room with access to the terrace, three bedrooms of which the master room has its own bathroom and dressing room, other bedrooms with bathroom and third normal bedroom, guest toilet and storage room. The balcony staircase leads to a spacious roof terrace with an open view of the sea and the surrounding area. On the roof terrace, there will be electricity and water installations for the jacuzzi, pergola and barbecue, which are not included in the price, but are an additional option at the request of the buyer in agreement with the investor. The owned apartment has three garage parking spaces that are included in the price of the apartment. The multi-apartment building is located in an extremely attractive location in a quiet area of Trsat, close to the University and the new Clinical Hospital Center. Close proximity to school, kindergarten and sports and recreation center. The main contractor is a renowned Croatian company with many years of experience and a reference list in multi-apartment construction in the country and abroad. The building is made with materials of the highest standard, and all residential units are equipped with underfloor heating and a heat pump. Parking spaces are provided in a closed underground garage. The apartments will be equipped at a high level by renowned brands. Reynaers aluminum triple-layer joinery, top-quality interior joinery, Mitsubishi underfloor heating system with heat pumps, ducted valve convectors fan-coil heating and cooling system, modern sanitary fittings from renowned manufacturers, state-of-the-art first-class floor coverings, glass balcony railings, etc. The apartments will be sold in turnkey phase and the planned completion of construction and occupancy is expected at the end of 2023.
