Description

Description: Marčana, Peruški, we are selling a beautiful plot with a sea view. In a nice location at the end of the village, we are selling a plot at the back of the construction zone. The plot has a total square footage of 5932 m², of which 1270 m² is the

construction part of the land, while the rest is for agricultural use. The terrain has a regular shape and a flat surface that offers a beautiful and unobstructed view of the olive groves and the sea. The field has an access road from the country road, and the electricity and water infrastructure is located directly next to the field.
