Rovinj. The villa was built in 2017., with a total living area of 350 m2 while lying on a plot of 700 m2. It consists of a basement, ground floor and first floor, while in front we find a large pool and courtyard. In the basement of the building there is a large space for fun and relaxation. So here we find a sitting area with a large television, billiards, table football and table tennis and a richly equipped gym and fitness corner. The ground floor consists of a fully equipped kitchen with dining area, living room, one double bedroom and one bathroom. On the first floor of the villa we access a beautiful stone internal staircase consisting of three spacious bedrooms, two of which have access to the terrace with seating furniture with panoramic views of the greenery and the fabulous Sv. Lovreč. Each bedroom has a private bathroom, air conditioning and a TV. From the living area of the villa we access the terrace which is completely paved with stone and where there is a beautiful infinity pool of 32 m2 (8x4). Below is a neat yard with lawn and greenery. In front of the building there are two covered parking spaces while the whole house is surrounded by a high fence and solid stone pillars. The property is heated by inverter air conditioners, while underfloor heating is installed on the entire ground floor. The floors are made of high quality ceramics, the whole building is paved and covered with stone, which invested a lot of money, the facade is ten centimeters of styrofoam, while the carpentry is made of PVC with an aluminum finish.
