Description

Description:

ISTRIA, POREČ - Attractive new building with a view of the old center of Poreč and the Adriatic Sea! The city of Poreč, one of the most beautiful pearls of the Adriatic Sea, is located on the west coast of Istria. On the relatively small peninsula area where the city arose, traces of the meeting of the Slavic, Romanic and Germanic worlds are still clearly visible today, which at the same time bear witness to the multitude of changes - political, social and ethnic - that this Istrian town has experienced in history. The history of Poreč is a history of constant changes, movement and turmoil, the impermanence of the people, ups and downs, in which the history of new beginnings appears as a constant. This city constantly reveals traces of the life of many civilizations and cultures that built its urban and historical identity. Poreč, in its history of about two thousand years, remembering happy but also difficult times, has grown into a promising and pleasant city to live in. It has based its development in the last fifty years on the tourist offer, building the image of one of the largest tourist centers in Croatia, so today it rightly bears the title of the metropolis of Croatian tourism. This new building with a total of 30 apartments is located right in the heart of Poreč. The Residence S25 project is not based only on the quality of the building itself, but also on the environment of the building, it envisages the planting of Mediterranean plants and trees that will raise the entire project to a higher level of horti-cultural landscaping of this ultimate Mediterranean "residence" for our future customers. As for the materials and the interior of the building itself, the Residence S25 building will be equipped with an elevator with an entrance station in the garage to each floor. The exterior and interior decoration of the building and apartments will meet high construction quality criteria as well as a high energy certificate A+: thermal facade system, storey heating and cooling system with inverter air conditioners in the living area of the apartment and all rooms, top quality Italian ceramics and first-class laminates, entrance anti-burglary doors with coded keys, residential carpentry made of high-quality PVC/ALU profiles glazed with double IZO glass filled with argon, electric underfloor heating in the bathrooms, what makes this entire project a great investment opportunity! Apartment A203 is located on the second floor of a total of four floors. It consists of an entrance hall, a bathroom, a kitchen, a living room, a bedroom and a covered balcony, and it covers an area of 57.15 m². The apartment also has a garage. The completion of the project is scheduled for March 2025. **DIRECT CONTACT WITH THE AGENT:** Agent: Nikola B. Mobile: 095 377 5581 E-mail: nikolabaltic.elite@gmail.com
