Description

Description:	Žminj, residential building plot in a quiet area, 1564m2. Near by Žminj, in a quiet part far from the hustle and bustle of the city and traffic, we find this residential building plot with an area of 1564m2. The water is on the land, while electricity is about 50 meters away. This plot of land with a quality project can be ideal for building a holiday home or a rental away from the view due to its configuration (flat part + certain slope) and the fact that it is located on the edge of the construction area after which there is no construction.
