Description

Description:	<p>The land in Šilo, which is right next to the sea, is located in the undeveloped part of the construction zone T3 (hospitality purpose and tourist purpose). There is a possibility to bring electricity to the field (the lockers are on the access road, less than 100m away). Also, mobile facilities have been placed on the surrounding plots. The water supply does not pass through the area, however, a cistern or desalination machine can be installed. Between this field and the access road is another field, on the western side. This field is accessed by an access road that can only be reached on foot. Parking is possible in a space approx. 50-70m away. From the center of Šilo, this field is approx. 800m away. It is a very interesting field, and the documentation is arranged. The advantage of this land is complete privacy in a beautiful location right next to the sea, a private oasis in nature</p> <p>Custom ID: ID-606</p>
