Energy efficiency:

installation, Black pit, ADSL
In preparation

Description

Description:

Vrbnik, we enriched our real estate portfolio with this luxury project for a house under construction. In the quiet central part of the island of Krk, only 2 km away from the sea, is located this modern property with the potential to fulfill even the highest expectations. Construction of a one-story house with a NE/SW oriented pool has begun on a semi-circular plot of 905 m². The ground floor is ~133 m² large and has an entrance porch that leads to a corridor with a staircase to the first floor. From the hall you enter the bedroom, bathroom and storage room. Attached to the corridor is a large open space in which the kitchen, dining room and living room are located. This room is illuminated by large movable glass surfaces with exits to a covered terrace. Equipped with a summer kitchen and a large L-shaped pool this terrace is ideal for spending sunny days outdoors. The first floor is separated as a sleeping area across a total of 93 m². It has three spacious bedrooms, each having a bathroom, while the two eastern rooms also have an exit to the terrace with a wonderful view of the surroundings. For the construction of the property, top quality materials were used in the reliable hands of a renowned contractor. An exceptional property worthy of your attention! Custom ID: ID-916
Energy class: U izradi
