Description

Description:	Fužine, surroundings - we mediate in the sale of construction land with an area of 4,762 m2, (consists of 4 parcels) in an untouched part of nature, suitable for the construction of rural tourism buildings. We have a conceptual project where, according to the current conditions and according to the possible subdivision into 3 building plots, it is allowed to build free-standing buildings up to max. 60 m2 of floor plan area with two floors above ground (the second floor must be an attic). Fences should be green or wooden, as well as a combination of wood and greenery. The architectural design of buildings, the design of facades and roofs, and the construction materials used must be appropriate for traditional construction (Gorski kotar). It is possible to build wooden buildings as well as prefabricated wooden houses. The land offers a view of the future Jelenča ski resort. Custom ID:
