## Description

Description:

Labin Building plot with a beautiful view. The picturesque town of Labin, located on a hill 320 meters high, which is dominated by the bell tower of St. Jušt, it is rare when the wealth of architecture and cultural and historical monuments is so charmingly combined with numerous art studios. After a walk through the streets of the Old Town, visit the City Museum with an archaeological and ethnological collection and a model of a coal mine unique in this part of Europe, take a look at the art studios, enjoy the beautiful view of the sea, Kvarner and the islands. Not far from the center of the city of Labin, in one of the city's settlements, this spacious plot of land is located. The land is rectangular in shape, gently sloping, with an open view. Electricity, telephone and water are nearby. The location, although close to all city amenities, is still quiet enough. The construction of an urban villa is permitted, the minimum area of the building plot is 1000 m<sup>2</sup>. The maximum building height allowed is 8.50 m, that is, the maximum number of above-ground floors can be ground floor+1+attic. At least 50% of the total area of the plot must be a park or other green landscaped area. This is an ideal land for building a villa or a family house with a beautiful view of the greenery, and the specialty is certainly the panoramic view of the old town. ID CODE: 1494
