Description

Description: We are selling a large flat of 266 m² for renovation in Žminj - Istria. Located in a historic building from 1900, center of the village. Rarity! In the very heart of Istria is the old medieval historic town of Žminj, a crossroads from which you can reach any city in Istria, Pula, Rovinj, Poreč, Labin, the airport or beaches in 30 minutes or less. Žminj was an important fortress in its history, from the pre-Christian era, and today it is one of the few remaining peaceful places, ideal for escaping from crowds, mass tourism, and yet with all the facilities necessary for urban life, from shops, banks, schools, etc. . The property for sale is located in the very center of the old town, next to the parish church and rectory - which is extremely rare on the market and makes this property extremely interesting. The historic building is built of stone and has 3 floors with a total net area of 266 m², which in nature makes up half of the building, with its own entrance. On the west side of the building, there

is a garage, above which is a quiet green garden-terrace, which is accessed from the first floor of the apartment. The building is connected to electricity and water, with a connection to a septic tank, and the future owner can connect to the city sewer that passes in front of the building. No one has lived in the building for years, and it needs renovation considering the purpose to which the building would be brought, so the exterior appearance of the building should not be changed (recommendation), while the interior can be arranged and adapted to a modern way of living. The special feature of this building is its position in the very center of the medieval town, its classic Austro-Hungarian construction, which together with the surrounding buildings, the church, the parish hall, the walls, forms a whole and gives a touch to the historical appearance of the square in Žminj. Each floor (ground floor, first and second floor) has 72 m² each, + attic 20 m² + garage 30 m², with a total net area of 266 m².
