Description

Description:	ISTRIA, KANFANAR - Beautiful autochthonous villa in a closed complex There are many sights for which Kanfanar Municipality is famous. From the beautiful

green-blue oasis of the Lim Channel to the ruins of the medieval city of Dvigrad, numerous archaeological sites, rich sacred heritage, local products and the like. In Kanfanar, you will find the peace that is typical of small villages in the hinterland of Istria, although you have everything at your fingertips. A small place where the mild Mediterranean climate is combined with the natural features of the inner Istria, a 15-minute drive from Rovinj and only 2 km from the highway exit. In a small village a few kilometers from that cute little town, we are selling this beautiful autochthonous villa, which is part of a closed complex that will contain 9 Mediterranean villas with a swimming pool. Villa 1 was conceived as a two-story house with a total net area of 167 m². The ground floor consists of a covered entrance, hall, kitchen, living room and dining room made according to the openspace concept, pantry, additional storage, one bedroom with its own bathroom, additional bathroom and a large covered terrace with an outdoor kitchen. Internal stairs lead to the first floor where there are two bedrooms, each with its own bathroom. Outside there is another storage room for the pool engine room. On the plot of 775 m², there is the already mentioned summer kitchen with barbecue, a beautiful swimming pool of 8x4 m² with a sun deck covered with stone and additional greenery with planted plants that will be watered through the irrigation system. For your tin pets, 2 covered parking spaces paved with concrete are provided. Underfloor heating is planned on the ground floor and on the first floor, while cooling is provided by air conditioners (every room + living room). The house is oriented to the south and is open to light and sun almost all day, while at the same time ensuring maximum privacy for each individual house. The house will be built in a typical Istrian style, where the emphasis was placed on the materials with which such houses were built once upon a time. Demit facade is 10 cm thick and it comes on the facade in combination with stone. Internal and external wooden carpentry. Ceramic floors, stone stairs. Wrought iron handrails and railings. The entrance gate to the settlement will be powered by an electric motor and will be controlled by a remote control. This beautiful two-storey house is ideal for an investment in a tourist rental or for a family home! The distance from Pula is 30 km, and Rovinj is only 20 km, which gives residents proximity to urban areas and the sea, but at the same time the possibility of living in the peace and quiet of a charming Istrian village. Dear clients, the agency commission is charged in accordance with the General Business Conditions:
