Description

Description:

ISTRIA, ROVINJ - Luxury designer villa 200m from the sea As one of the most picturesque and romantic cities in the Mediterranean, it attracts visitors with its pleasant Mediterranean climate, carefully designed green areas, clean and tidy streets with colorful facades and small squares, the friendliness of the local population and numerous cultural events. Visitors' hearts are won over by its indented and diverse coastline with 22 islands and islets, rocky headlands and pebble coves along the 67-kilometer long Rovinj coastline, as well as rich natural and cultural sights. The symbol of the city is the church of St. Euphemia - an imposing building that dominates the old town center with its 60-meter high bell tower. In an elite part of the city, at a distance of only 200m from the sea and the first city beaches, we offer an imposing designer villa under construction with a swimming pool, the terrace of which offers a wonderful view of the sea. The villa will consist of a basement, ground floor, first and second floor. The basement is designed as an oasis for relaxation where there will be a gym, jacuzzi, toilet, bathroom and sauna. Also, space was found in the basement for the kitchen, but also for the cinema and game room as well as for the boiler room. Take the elevator that runs through the entire villa or take the wooden stairs to the ground floor where there is a garage and an electrical room. In the front part of the ground floor, that is, the one facing the sea, there is a BBQ kitchen, a terrace from which, through a sliding rock, you can reach the sunbathing area and the 40m² swimming pool. You can also take the elevator or wooden stairs to the 1st floor where there are 2 bedrooms, one of which is designed as a master bedroom and has its own exit to the terrace, jacuzzi, bathroom and toilet. The other two rooms also have their own bathroom and toilet. Each room is approximately 40m² in size, which means that spaciousness and comfort were taken into account. The living room, kitchen, toilet and bathroom will be located on the second floor. Also, on the 2nd floor, there is another room that is designed as a business room. The house is made of the highest quality and most modern materials, of which the investor stands out: stop sol ALU carpentry with three-layer glass, solar power plant, doors will be placed flush with the walls throughout the house, the entire house will be controlled via the KNX system with a smartphone - smart house, parquet worth HRK 1,000/m², heated swimming pool with massager and geyser (salt or fresh water is left for the customer to choose), electric curtains, pivot glass doors that open with a fingerprint, air recuperator, the most modern heating and cooling system through underfloor heating throughout the house and air conditioning. The planned completion is scheduled for 01/2023. The house is in the VAT system - and the buyer does not pay the 3% tax on the acquisition of real estate. This is an ideal opportunity for an investment to rent during the tourist season, but also for those true hedonists who want to enjoy the most elite part of the city of Rovinj. Dear clients, the agency commission is charged in accordance with the General Terms and Conditions. www.dux-nekretnine.hr/opci-uvjeti-poslovanja ID CODE: 16401
