center of the island of Krk, which enchants with its representative medieval heritage. It was formed during the Venetian domination of this area. During this period, the Frankopan princes of Krk stood out, who managed to stay in Krk for several centuries through skilful political flirtation with Venice. Today we know Krk as a tourist place of exceptional cultural and artistic heritage, in which the ancient Splendidissima Civitas Curitarum (the glorious city of Krk) lives in accordance with the hectic character of the modern age. The ideal geographical position is an advantage that the island of Krk knew how to value very well as a tourist destination. We are talking about the proximity of the mainland to which the bridge connecting Krk with the mainland was added twenty years ago, thus making it even more accessible. Good transport connections have made the island of Krk a favorite excursion destination, but also vice versa: the island can be made meaningful day trips. For example, a trip to the national parks Plitvice Lakes and Northern Velebit. Real researchers will certainly want to get to know Rijeka - the center of the Primorje-Gorski Kotar County, and will connect their stay in Rijeka with an unavoidable visit to Opatija - the tourist "pearl of the Adriatic". It will be very interesting a day trip to Istria, where we recommend staying in its central part rather than on the coast! Finally, the island of Krk is connected by ferry line with three islands: Rab, Cres, Lošinj, which can also become destinations for your day trips. By no means return from the Golden Island before you are convinced of the trump cards that gave it this flattering name from the time of the Roman Empire. Enjoy the sumptuous taste of Kvarner fish and the far-famed Kvarner shrimp. For island lamb we will tell you that it was served at the court of Roman emperors, we believe this is a sufficient recommendation. The sea on the island of Krk is extremely clean! This claim will be best supported by six blue flags that city beaches deserve every year by meeting high sea quality criteria, and then offers: sanitary, catering, sports, recreational, with the obligatory note that the beaches have access to the sea for the disabled. In the town, in the area of Dražica, there is a beach for dogs, a separate area for bathing dogs that cry for refreshment during the summer heat. The cleanliness of the sea on the beaches, among other things, we thank the fact that the beaches are pebble or rocky with landscaped sunbathing areas. If you become eager for exploration and intimacy, and at the same time know how to operate a boat in the city port, look for where rental boats are moored. The coast of the island near the city is a real treasure trove of hidden, intimate pebble coves that can only become your private beach for at least one day.
