Description

Description:	ISLAND OF PAG - Duplex house The island of Pag is the fifth largest island in the Adriatic Sea, but with a coastline of 302.47 km it is the most indented island in

the Adriatic. The island is known for its poor vegetation coverage of some of its parts, which is often compared to the lunar surface. The stony landscape with only a few leaves of aromatic plants grazing sheep creates a unique impression. In the town of Pag we are selling a semi-detached house with two apartments, a garage and a garden. The house is located opposite the old town, in a new settlement that has water and sewage. It was built in 2005. The large terrace and balcony offer a beautiful view of the sea, specific Pag vegetation and rocks. In the basement there is a garage, on the first floor a two bedroom apartment of 88m2 with living room and bathroom and on the second floor an identical apartment. The house is a great investment - both for living and for tourist apartments. Contact the agent in person for sightseeing and information. Dear clients, the agency commission is charged in accordance with the General Terms and Conditions:
