Description

Description:

Detached house located near the sea built with high quality materials and intended for those who want to engage in tourist rentals. It was built with a facade brick, has excellent insulation, and received the energy certificate A. Underfloor heating was provided throughout the house. On the ground floor the whole floor is covered with natural stone, on the first floor the whole floor is covered with granite and on the second floor the whole floor is covered with a special laminate due to underfloor heating. All carpentry is pvc, and all window frames are lined with granite. In the boiler room there is a solar boiler of 1000l and there is a boiler of 400l for sanitary water. Next to the house there is an auxiliary building that serves as a summer kitchen and there is also a bread oven. Ground floor - there is a residential unit of a family apartment with two bedrooms, living room, kitchen and bathroom, total area of approximately 60m². Opposite the same apartment there is a studio accommodation 25m², one bedroom, kitchen and bathroom with shower. As part of the ground floor is a large garage of about 25m². On the first floor there is a spacious apartment with a total area of approximately 130m² (with terrace), consisting of three bedrooms, living room, two bathrooms, large kitchen connected with dining area and pantry. On the second floor there is an apartment with a total area of 130m² (with terrace), divided into three bedrooms, each with its own bathroom, one large kitchen and living room. In the attic there is an exit to the terrace which is currently used for servicing and access to the solar system, which offers a sea view. All rooms are air conditioned and have their own air conditioning. The complete garden is arranged, the pool of 28m² lined with a cooler with hydromassage. There is also a water well in the yard.
