Description

Description:	<p>RAB, LOPAR Building land with a beautiful view! Last in line! The island of Rab located in the Kvarner Bay in the northern Adriatic is a real paradise for lovers of nature and authentic island atmosphere. Its timeless beauty was recognized in ancient times by the Romans, calling it Felix Arba or "Happy Rab". With its natural and cultural beauties, the scents of pine trees and aromatic herbs and the irresistible flavors of freshly caught fish or the famous Rab cake, the island of Rab is truly the happiest choice for a vacation. This building plot, also the last in a series of construction plots, is located on a slight hill and only 650 m from the sea. It has a regular shape and consists of two plots, larger than 826m² and less than 150m². Construction has started on the land (stuck out) and the current owners are in possession of all the necessary documentation for the construction of a villa of 200m² with a beautiful sea view. All infrastructure is located only 50m from the land. Currently, a fire road that is not marked in the land register crosses the land, and with an agreement with the municipality, the situation would be resolved by a wall that would separate the road from the plot or by changing the route and bypassing the land itself.
