Description

Description: LOCATION A beautiful building plot for sale with an open view on the island of Šolta, in the town of Rogač. Rogač is located on the northern side of Šolta, on the most convex part of the island. The town itself dates back to ancient times, created as a port of the central place on the island, Grohote. Even today, Rogač is the main and only port on the island, the starting point in whatever direction you direct your exploration of the island. During the arrivals and departures of ferries, especially in summer, Rogač is full of guests and locals rushing to their destinations. Thanks to the beautiful nature, beaches, central position and excellent traffic connections, Rogač has become a destination in itself. It is ideal for a vacation if you want to explore the entire island during your vacation, but still have beautiful beaches with crystal clear sea, nature and silence in the immediate vicinity. The island of Šolta is well connected to Split, by ferry and catamaran lines both in summer and winter. DESCRIPTION The building plot has a total area of 1766 m², which is about 15 minutes' walk from the ferry port and 500 meters as the crow flies from the beach and the sea. The center of Grohote can be reached on foot in about 10 minutes, where all the shops are located. A road leads to the land, which is mostly asphalted and only a small part is macadam. Water is located right next to the plot, and electricity is on the plot. The land is located within the boundaries of the

undeveloped construction area of the settlement, within the zone of mixed use, predominantly residential, marked M1. The plot is located in a very quiet location, at the very edge of the construction area, so behind this plot is a green zone. It is very sunny throughout the day, and the size of the plot itself is a big advantage. The owner is interested in dividing the plot into two parts so that each plot would have 880 m2.
