Description

Description: We are selling an autochthonous Istrian holiday house located in the heart of the Istrian peninsula. This beautiful vacation house of traditional design is conceived as a two-story house, with a total area of 294 m² and is located on a spacious plot of 1000 m². The house is built with quality materials and equipped in a traditional style that offers functionality as well as comfort. Natural materials such as stone and wood prevail, the details of which permeate the entire interior. There are a total of four bedrooms on the first floor, one of which is a master bedroom with an en-suite bathroom and access to a balcony with a beautiful view of the surrounding untouched nature, while the other bedrooms share a common bathroom. The ground floor includes a comfortable living room, a fully equipped kitchen and a dining room with access to a covered terrace that overlooks the swimming pool and landscaped garden. There is also a wellness area with a sauna and a mini gym. The issue of heating and cooling is solved with installed air conditioners in all rooms, a classic Istrian fireplace in the living room and underfloor heating in all bathrooms. The house also has installed solar panels for the production of its own electricity. The spacious garden is beautifully decorated and maintained and offers privacy and peace to its hosts and guests. In the center of the garden there is a beautiful swimming pool of 40 m² with an arranged sunbathing area. The location of the property offers peace and escape from everyday life in a beautiful green oasis in central Istria. The house has a well-established year-round rental business that the new owner can take over. ID CODE: 2003-407
