Description

Description:	HOUSE WITH 3 APARTMENTS 1ST ROW TO THE SEA IN A TOP
--------------	---

LOCATION - Prvlaka We present to you a house with three apartments in the first row to the sea in one of the most ideal and quiet locations in the famous tourist destination - Prvlaci. In front of the house, there is a beautiful promenade along the sea which, in about 50 steps, whichever way you go, leads you to the beautiful sandy beaches and bays for which this place is very famous. And it is important to emphasize that there is medicinal mud in the sea in front of the house, which helps to cure rheumatism and dermatological diseases. Scenes and views of the sea and the surrounding islands that can be seen from almost every place of this house and its yard are simply a story in themselves and something that should be experienced live because words would certainly not be enough. The house is located at the end of a cul-de-sac and is surrounded on both sides by tall Mediterranean vegetation so that it is not exposed to traffic, unwanted passers-by and views. The nearby beaches are sandy, shallow and without much exposure to waves, and as such are ideal for families with children. The house consists of a total of 3 apartments and a spacious basement inside which you can create an ideal room for relaxation and pleasure. Each apartment consists of two bedrooms, an open space kitchen, living room and dining room, bathroom and several terraces with truly breathtaking views. All apartments are fully equipped, furnished and designed and are being sold as such. What is particularly enchanting is the spacious garden area of 638m², inside which we can find a summer kitchen with a large stone chimney and a canopy with a dining area, a sundeck, a lounge area and a garden rich in Mediterranean plants. However, we should definitely emphasize our own staircase covered in Brac stone, which leads us from our beautiful garden to the sea just a few steps away. This is something that few properties in the 1st row to the sea can boast of. The house also has its own parking lot for several cars. Considering the above, it is easy to conclude that this is a property that provides everything needed for a true and hedonistic life and vacation at sea. Also, the house has been rented out for tourist purposes for a number of years, and its occupancy results guarantee you a high rate of return on investment if you decide to continue with tourist rentals. Among the equipment and additional details about the house, we should highlight: - all green areas around the house have automatic irrigation - ambient lighting is installed around the house and in the garden - replaced roof (spring 2020) - thermal insulation 8 cm stone wool - manufacturer Rockwool (spring 2021) - wooden joinery (ALU-PVC) was replaced (except on large balcony walls) - Profiles: Rehau - Euro design 70; Color: white; Filling: glass iso4+16+4 float, mosquito nets (spring 2021) - grilles are made of anodized aluminum material resistant to salt (spring 2021) - all gutters replaced - high-quality aluminum, salt-resistant (spring 2021) - tiled retaining wall facing the sea, mesh and last hand silicate.
