Description

Description: RAVNA GORA A beautiful house built from larch logs (thickness 25 to 35 cm) is located on a nice large plot in the heart of Gorska Kotar, surrounded by a stream and forest. The house has a ground floor and a first floor: on the ground floor there is an entrance area, an open living room with a fireplace, a kitchen, a dining room (above which a smaller room like a playroom or reading room is planned) and a guest toilet. From the living room there is access to the terrace and the meadow in front of the house, while the forest stretches in the background and to the side. On the first floor, there are two bedrooms with their own bathrooms (glass shower and bathtub). The windows are triple-layered from larch. The house has connected water and electricity, as well as a septic tank. The house is in a high state of repair, it needs to be finished (tiles, floor heating via a heat pump, sauna on the 1st floor), the environment and the terrace should be finished, stone curbs should be placed at the base of the house. In the surrounding area, there are houses of similar architecture that are very successfully rented out for tourists, so the house represents an investment opportunity! For more information and a tour, call +385 99 3200 008 ID CODE: 13710
