In front of the villa, it is planned to plant a vineyard as well as an olive grove, which is conceived as a green wall that divides the villa from the road and the rest of the houses. The ground floor of the villa is designed as a large open space with a kitchen, living room and dining room with direct access to the swimming pool, sun deck and covered terrace, a bedroom with its own bathroom, sauna, guest toilet, laundry room and a room that runs part way around the villa intended as a storage room. or a wine cellar, left to the wishes of the future owners. Stairs that will connect the area where the swimming pool is located with the summer kitchen or via stairs that are connected by a landscaped garden. The first floor of the villa consists of three bedrooms, two bathrooms and a large covered terrace that is connected to the lower part by stairs. Inside the villa there is a space that can be used as a large storage room or as a wine cellar, which maintains an optimal temperature during the summer months due to the embankment that will partially surround the villa.
