Description

Description:

ISTRIA, PULA New construction in a frequent location Fort Movidal is a land fortress located on the Monvidal hill in Pula. It was built by the Austrian Empire during the second half of the 19th century to protect the main port of its navy. The fort was located in Sector I of the Coastal Region of Pula (German: Küstenabschnitt Pola). It served for the defense of land and sea and was facing from the northeast to the southwest, and the range of its cannons was from 800 to 1,000 meters. Right in the Monvidal district, there is this larger residential building with a total of 6 floors. It is located right next to the Pula bypass, in the immediate vicinity of a large shopping center. It is only a few minutes away from the city center of Pula, while the proximity of the ring road provides a connection with the first Pula beaches and the Istrian upland. The apartments are located from the first to the sixth floor, while on the ground floor of the building there are parking spaces that each apartment owns. The building has a total of 90 residential units of different square footage. Each apartment is equipped with electric underfloor heating in the bathrooms, high-quality ceramics and laminate, Ariston Velis boilers, inverter air conditioners, burglar-proof entrance doors and internal white room doors. We offer apartments with one, two or three bedrooms. The property in question is located on the first floor and has a total living area of 57.13m². It consists of an entrance hall with a wardrobe, a living room with a kitchen and a dining room, two bedrooms, a bathroom and a loggia. For more information about the apartment itself (floor plan, payment stages, deadlines), contact your agent! Dear clients, the agency commission is charged in accordance with the General Business Conditions: www.dux-nekretnine.hr/opci-uvjeti-poslovanja ID CODE: 29960
