Description

Description: Opatija Kolavići Building Plot with Stunning View! In the hinterland of beautiful Opatija on the Opatija Riviera, we are mediating the sale of a building plot with construction already underway. The plot is located in the exceptionally charming settlement of Kolavići, above Opatija, with a sensational view of the downtown area of Opatija, which is about a 10-minute drive away. It spans 1000 m² and is distinguished by an absolutely sensational view of Opatija and the entire Kvarner Bay. This building plot has a flat configuration with excavations and supporting walls already in place, and it is accessible via an asphalted access road. The necessary utilities for construction are located in the immediate vicinity of the plot. A great project and a valid building permit enable potential investors to start/continue construction without delay. According to the project, a beautiful modern urban villa with a net area of 493 m², a pool, and beautiful outdoor spaces is planned for construction. The large living area spans about a hundred square meters, and there are 3 comfortable bedrooms, each with its own bathroom, separate areas, additional toilets, and a work or relaxation area on the upper floor, which are just complementary to this phenomenal project. The surroundings of this plot consist of beautiful urban villas that perfectly complement the exterior of the location. We consider this property ideal for all hedonists and enthusiasts of this part of the Opatija Riviera! ID CODE: 724
