Description

Description: In Jelsa on Hvar, two residential buildings comprising 12 apartments are under construction on a land area of 519 m². The apartments will range from 52 m² to 66 m² in size. Our office, conveniently located just 150 meters away from the construction site, ensures access to up-to-date information and new photos of the ongoing construction. Additionally, we offer the lowest commission compared to other agencies selling this property. All apartments have one bedroom, as you can see on the floor plans, and the prices are: For two apartments on the ground floor €300,000€340,000 for two apartments on the first floor and two on the second floor. The buildings, spanning three floors with a flat, impermeable roof, feature 10 cm stone wool insulation and a ceramic facade. High-quality materials and construction standards are employed throughout the building process. The interior will boast ceramic tiles with underfloor heating in the bathrooms, and the living spaces will be equipped with an inverter smart air conditioner. Special emphasis will be given to meticulous horticultural landscaping. The expected completion of construction and handover is early 2025, providing buyers the opportunity to contribute individual design solutions and details to their new home.
