Description

Description: Modern new construction in the vicinity of Poreč Not far from the city of Poreč, in a well-known and desirable place on the west coast of Istria, surrounded by lush Mediterranean vegetation, the construction of this house of superior design, content and quality begins. The house with its 117.2 m2 net area is spread over two floors, ground floor and first floor. On the ground floor of the house there is an entrance hall that leads to a spacious living room with a dining room and kitchen, a storage room and a toilet. An elegant staircase leads from the living room to the floor where there are two bedrooms, each with its own bathroom, which, with their concept and size, provide real comfort and relaxation. From the first floor of the house there is a beautiful view of the sea and the surrounding landscape. In particular, it should be noted that the house, with its carefully thought-out design and above-average ceiling height, opens up great possibilities for room decoration and suits all levels of comfortable living, making it an elite living space. From the living room there is access to a landscaped garden of 218 m2, which provides enough space to create outdoor content according to the wishes of the future owner, surrounded by nature, peace and chirping birds. This modern house, executed in detail with high-quality materials, perfectly combines luxury, comfort, peace and connection with nature. All necessary facilities for life are located in the village itself, while Poreč and the first beaches are only a 10-minute drive away. An opportunity designed to meet the needs of everyday life and weekend relaxation with family and friends has been successfully realized in this house of modern design. We are at your disposal for all the details! ID CODE: 1039-24
