Description

Description: At this typical Istrian village, on the other hand, there is this beautiful village where only my clothes, clothes and privacy are hidden. The villa is located in the western part of Istria, just a few minutes walk from the nearest restaurants, agrotourisms, farms, mountain huts and our free alpine huts are the most modern and most beautiful in the world. Distance from the sea, private beach and Poreč town is 15 km away. This impressive villa is located in a quiet area on a plot of 4212 m². The villa is located in a residential area and has a total of 57 m² of which can be rented as an additional guest. The villa has a gross area of 314.09 m². With many positive and excellent features, both the villa and the garden are beautifully landscaped, furnished with every comfort and privacy, as well as being directly accessible from any direction, on a private terrace or enter the room where you see a fantastic view. In fact, three strange things happen in the classroom, two of them just walking around in a crowded bathroom, and one in his own bathroom. If you get bored during the day, cows and swans will wake you up. The prize winner is a technical soup and a guest toilet. The upper cat stands on the previous steppe, which is covered with a thick layer of rubble. The master bedroom is located on the upper floor, from the bathroom there is a large shower cubicle and a jacuzzi, a beautiful open terrace with a view of the yard, a shower and a toilet which is located just outside. The house is surrounded by a green field where there is plenty of privacy. The large building of 70 m² is ideally located in a bright yard, just like in the other buildings in the direct vicinity. When the door is opened, a

new, clearly visible sign of innocence is revealed, with a veil and a thick layer of dirt for insulation, when the doors open, a ping pong table, a rain jacket, a shovel and a shovel full of snot, the result is stunning with the preceding botany. The position of the house gives rise to a large number of ancient ruins, which at the same time create a halo and a cradle in the house with these stones. Each apartment has its own bathroom, a shower, a toilet and a separate toilet. It is difficult to understand how the divine will work. The heat can be adjusted to suit your needs, the daytime heat is simply amazing, with added air conditioning and a fireplace. The heat is so great that it is radiated centrally from the additional climate. The villa is as good and as spacious as the rest of the house, completely renovated and surrounded by greenery. Every morning I freeze in the yard and my privacy is restored. Houses are full of bare necessities, and the biggest drawback is on its way to its destination, where you can find whitewashed buildings, a raised terrace for storage, a fence and a walkway. It is estimated that there are 434 streets with cycling lanes, only 400 meters of sports, cycling, professional teams and a large number of paths in the area. Custom ID: H-0656 Remark: Viewing the property is possible with the signing of the brokerage contract, which is the basis for further actions related to the purchase and sale, all in accordance with the Act on Brokerage in Real Estate Transactions. The agency commission is determined by the brokerage contract, and is payable after the conclusion of the sales contract.
