## Description

Description: The island of Rab-Supetarska draga, a house with a floor plan of 162 m<sup>2</sup>, divided into G+1+VPOT! The potential is huge due to the proximity to the sea and the garden, which covers 584 m<sup>2</sup>. The house was built in the 80s of the last century, the attic was upgraded and has proper documentation carried out through legalization. There are 13 rooms with bathrooms on three floors. The island of Rab, located in the Kvarner Bay in the northern Adriatic, is a true paradise for lovers of nature and authentic island atmosphere. Its timeless beauty was recognized by the Romans in ancient times, calling it Felix Arba or "Happy Rab". Even today, visitors are attracted by the amazing nature of the island - from numerous sandy beaches on the Lopar peninsula and stunning hidden coves on the Kalifront peninsula to preserved holm oak forests, fertile valleys and the rocky mountain peak of Kamenjak, which protects against storms in winter. The charming town of Rab, recognizable by its four bell towers and medieval walls, is the main center of the island, and its streets and squares invite you to discover the rich culture and history. In the summer period, the medieval summer festival Rabska fjera takes place in the old town, which attracts many visitors every year. With its natural and cultural beauty, the scent of pine trees and aromatic herbs and the irresistible flavors of freshly caught fish or the famous Rab cake, the island of Rab is truly the happiest choice for a vacation.
