Description

Description:	<p>ISTRIA, CEROVLJE - Building plot with an open view of the greenery The center of the spacious municipality of Cerovlje is the village of the same name. It is a municipality that stretches across the hilly landscape northeast of Pazin, and includes numerous hamlets and several larger rural settlements. In the Middle Ages, impassable ravines in the east, strengthened by defensive fortifications, formed an impregnable border with which the Margrave of Istria protected the territory of his dominion. The slow arrival of all the changes of modern civilization in remote villages had an effect on the depopulation and complete abandonment of some settlements. However, it also influenced the preservation of numerous ethnological peculiarities and ways of life that in other parts of Istria have long since become a thing of the past. If you are looking for real rural Istria, you are here. Such natural features are the cause of all the peculiarities of this area, both throughout history and today. In the vicinity of the wonderful Draguč, there is a quiet village where construction land is for sale. The property measures 1295m² and is rectangular in shape. The surface of the land is structurally sloping, on cascades, which gives it an unobstructed open view of the green hills. The access road is asphalted and all infrastructure (electricity and water) are located in the immediate vicinity. Own 1/1, Without charge, The property is certainly worthy of your attention, it represents an opportunity to build a family home, but it is also</p>
