It is an attractive modern one-story house with stone details, which is the main link with Istria and the well-known culture of this region. Namely, it is a villa with a total of 147.60 m² of living space. The entrance to the villa is located in the lobby, which divides the villa space into two parts, the bedroom and the living room intended for everyday life and entertainment. The part of the villa intended for daily life is designed as a larger and longer open space without dividing walls, which contains a larger modern kitchen with an island and a separate storage area, then a spacious dining room with enough space for the whole family, and finally a comfortable living room ideal for relaxation and entertainment. The entire space is illuminated with natural light with the help of larger glass sliding walls, through which the view and access to the covered terrace with summer kitchen, landscaped garden and irresistible swimming pool extend. The more private, i.e. the night part of the villa consists of three comfortable bedrooms, one of which has its own wardrobe and bathroom, while the other two bedrooms share one bathroom. Each bedroom has access to the garden through sliding glass walls, and thus access to the pool. In this part of the villa there is also a technical room, which is also used as a storage room, or a utility room. We must not forget to mention that in the lobby, next to the entrance to the villa, there is a guest toilet, as well as a space for storing jackets and shoes. What you must know is how the decoration and design of the villas was taken care

of by a renowned designer with a focus on every detail in the rooms, so that each of them fully fulfills its intended role. In addition to a high level of luxury and elegance, a large focus is devoted to comfort and convenience during the stay in the villa, as well as the warm atmosphere of a real family home. **COURTYARD OF THE VILLA:** The aforementioned villa is located on a spacious plot of 860m² in total. The courtyard of the villa is completely surrounded by a stone wall, which ensures maximum privacy during your stay in the open air. The central part of the garden is occupied by a spacious swimming pool with a diameter of 9mX3m (27m²) with a sunbathing area and a beach. Next to the pool, you can relax on the already mentioned covered terrace with a summer kitchen, ideal for entertaining friends and family. Various Mediterranean plants such as olive trees, low-growing pines and other ornamental plants are planned for the decoration of the yard.
